- Wednesday, June 17 “New EZ and Revised Full Forgiveness Applications for the Paycheck Protection Program”
 - The U.S. Small Business Administration, in consultation with the Department of the Treasury, posted a revised, borrower-friendly Paycheck Protection Program (PPP) loan forgiveness application implementing the PPP Flexibility Act of 2020, signed into law by President Trump on June 5, 2020. In addition to revising the full forgiveness application, SBA also published a new EZ version of the forgiveness application that applies to borrowers that:
 - Are self-employed and have no employees; OR
 - Did not reduce the salaries or wages of their employees by more than 25%, and did not reduce the number or hours of their employees; OR
 - Experienced reductions in business activity as a result of health directives related to COVID-19, and did not reduce the salaries or wages of their employees by more than 25%.
 - The EZ application requires fewer calculations and less documentation for eligible borrowers. Details regarding the applicability of these provisions are available in the instructions to the new EZ application form.
 - Both applications give borrowers the option of using the original 8-week covered period (if their loan was made before June 5, 2020) or an extended 24-week covered period. These changes will result in a more efficient process and make it easier for businesses to realize full forgiveness of their PPP loan.

This program will award grantees \$1,500.00 in community stipends for projects related to creating healthy, active, and engaged places to live, work, and play. The goal for this year's grant awards is to knit together seemingly disparate threads too often considered in isolation, including, but not limited to; racism and the public sphere; climate and environmental justice; access and inclusion; walking and moving as a mechanism for bringing about political change; and how COVID-19, the need for economic recovery and a growing awakening around racial injustice might alter the landscape of our work. Our desire is for proposed projects to have a particular focus on engaging in key issues of the day with new perspectives and diverse partners/ audiences while highlighting the vital role that walking and transportation patterns can play in a new era. - UNC School of Law Covid-19 Response Summer Project - The purpose of the Covid-19 Summer Project (the “Project”) is to 1) serve the legal needs of North Carolina charitable nonprofit organizations, including churches and other religious organizations, as they adjust to the Covid-19 pandemic, 2) provide rich practical educational experiences for a cohort of UNC Law students. The Project will focus on the legal needs of small, under-resourced charitable nonprofit organizations in North Carolina. Although many nonprofit organizations are distressed during this challenging time, the Project’s priority will be to serve organizations that could not otherwise afford to pay for legal services and that therefore have nowhere else to turn. The scope of the Project’s representation will depend on the volume of requests; however, in order of priority, it will accept matters involving 1) CARES Act loans and loan forgiveness; 2) other legal questions or challenges arising directly or indirectly from the Covid-19 pandemic, including employment law and risk reduction strategies; 3) other matters concerning the law of nonprofit organizations. Charitable nonprofit organizations seeking assistance should contact Professor Thomas Kelley at takelley@email.unc.edu.
